During the course of its business operations, Imogen have earned numerous awards and accolades from our works with the clients.

| Imogenpr.com | @imogen_pr |

This report is intended for public to understand the latest media landscape in Indonesia. We believe that people and industries are spending time wisely to finding the right publications data. The Imogen Indonesian Media Landscape Report is the guide to better understanding the media environment in Indonesia.

The 2022 report provide the new entrants in the Indonesian media landscape, and what is the latest situation. Imogen answer these questions and more, in a report on the essential media landscapes to know. In this report, we take the deep dives into national and local television, print and online media.

THIS REPORT COVERED:

- ☐ General overview of Press Companies, Journalist and their associations
- ☐ National Print Media: Newspaper, Magazine and Tabloid by circulation
- ☐ National News Television
- ☐ National Online News Media by page views
- ☐ Top National News Media by their Social Media Performance
- ☐ Media Group: List of media from each media group
- ☐ Media by Sectors: List of media per industry sector
- ☐ Local News Media by Provinces: List of media in each Province
- ☐ English News Publication
- ☐ Chinese News Publication

The list of national print newspaper, magazine and tabloid category is based on the existence of the print edition and the number of circulation, the data based on the interview with several media monitoring agencies.

The list of national news television category is based on the current existence of the TV station, the availability of the news program, and their newsroom operation. The data based on the interview with several TV practitioners and list from the TV Associations.

The list of national online news media category is based on the existence of the online media, the availability of news content, the availability of standard newsroom and field report practice. The data used the list from online news association. The data also used the national and international alexa rank from alexa.com and number of website pageviews from statshow.com.

The list of top national media by social media performance category is based on the comparison of each official social media account from each type of media; newspaper, tv and online. The data compared number of Facebook fans, Twitter and Instagram follower, and Youtube subscriber.

The list of media group category is based on the current existence of group of media that has ownership of various TV, print and online news media. The data derived from their official website, latest media business publications, and interview with several media business analysts.

The list of media by sectors is based on the current existence of media that has allocated section of specific industry sectors, and media that cover specific industry sectors: sport, healthcare, business and finance, tech and gaming, automotive, and lifestyle (food, fashion, travel).

The list of local news media by provinces is based on the each type of local media; TV, newspaper and online that operates in each provinces. Data derived from the local media associations, and interviews with several local media business analysts and local media practitioners.

The list of English and Chinese news publication is based on the current existence of Indonesian media that provide news in English and Chinese language.

The identified list in this report is not exhaustive. Data may vary and may not portray the actual condition.
